Her Majesty's Courts Service

**PROJECT**

Extension and refurbishment

# Hendon Magistrates Court

As part of the Ministry of Justice's modernisation programme to improve the quality of its magistrates court buildings and the efficiency of services provided, Feilden+Mawson were appointed under a framework agreement to carry out a feasibility study and design scheme for the extension and refurbishment of the Hendon Magistrates Court.

The scheme comprises a three storey extension to the existing two and three storey building to provide three new courts, custodial and administration facilities and improved access. The design also had to achieve a 'Very Good' BREEM rated energy efficiency standard. The project was completed in summer 2007.
